

## **PUBLIC HEARING NOTICE**

A Public Hearing for the purpose of receiving comments on the proposed Title V draft permit for **Triton Boat Company** will be held at 6:30 p.m. Central Time on October 7, 2008 at the Senior Center, 104 Ruth Drive, Ashland City, Tennessee 37015. This opportunity for public participation is a legal requirement of the 1990 Clean Air Act.

This source has applied to the Tennessee Air Pollution Control Division (TAPCD) for [renewal of their major source Title V operating permit](#) subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). However, it should be noted that a portion of this plant was not included in the previous Title V permit, but has already been issued a construction permit (with public notification). The issuance of a major source (Title V) operating permit is required by both the Federal Clean Air Act and the Tennessee Air Pollution Control Regulations.

The applicant is **Triton Boat Company with a site address of 15 Bluegrass Road, Ashland City, Tennessee 37015**. They seek to obtain a major source renewal operating permit for their Fiberglass Boat Manufacturing Operations. While there will not be physical changes to the facility, their renewal Title V permit will require additional monitoring, testing and recordkeeping. A new set of requirements, known as the National Emission Standards for Hazardous Air Pollutants (NESHAP) for Boat Manufacturing will be added to the renewed Title V permit.

A copy of the application materials used by the TAPCD and a copy of the draft permit are available for public inspection during normal business hours at the following locations.
